Welcome back from Winter Break!

I want to thank you for supporting your students here at Desert View. We are looking forward to an exciting second semester.

This semester goes by very quickly, please remind our students that they need to come to school daily, ask questions if they need help, and stay on their assignments and homework so that they are not trying to catch up at the end.

I have told students during the announcements to keep up the good work from 1st semester, and that if they did not do their very best 1st semester, that they are lucky enough to have the opportunity to renew themselves this semester and be the best students they can possibly be.

Please contact us if you need any support with your child! We believe in them and will provide all opportunities available for their SUCCESS!

Respectfully,

RoseMary Rosas

Academy Pride Night for 8th & 9th grade students and families: Thursday, January 24th 5:00 – 7:00 pm.

Please know that our Freshman Counselors are calling out students to meet if they have failed classes so they can get a plan set for success. Our freshman students will be asked to focus on their future plans and goals here at Desert View High School.

Any 9th grader who has failed a Freshman English class may take Weekend Academy, the cost is $40.00. Please see Ms. Parriott or Ms. Whitmore ASAP regarding this matter!

Please remind your students that they need to be on time to class. We average a higher number of tardies for 1st period more than any other period. If your student is late by 10 minutes every day, by the end of the year they will have missed 30 hours of instruction. In one class, that is an entire month of learning. Student success depends on skills like promptness and presence.
If your student decided to get involved in extracurricular activities here at Desert View High School. Below are some steps that MUST be completed to be cleared for participation. Proven Effects of Parental Involvement in Schools

Students whose parents are highly involved in their school will average about .5 to .6 of a standard deviation in overall educational outcomes.

Family participation in education is twice as predictive of student academic success as socioeconomic status.

Students with highly involved parents can experience learning gains in reading and math.

Students of involved parents have fewer behavioral problems.

Older students are less likely to drop out of school when their parents remain involved.

Students whose parents know about higher level programs, like AP classes, are likely to be in them.
